

FAIR HUNT

the other way to hunt...

Rutting Stag in Bakonybergen

Offer Nr.: 2502

The hunting area:

The Hunting Ground: The slightly hilly, flat area of 4,500 hectares is located in the Veszprém district and is part of Balaton National Park. Strict hunting control by the national park administration guarantees an excellent and well-structured game population. It is certainly one of the most beautiful scenic areas in Hungary, where one can not only hunt but also enjoy beautiful day trips in the surroundings. The area is about 30% covered with forest, 30% fallow land, and the rest with vineyards and agricultural fields. The roe, red, and wild boar populations are excellent. Some parts of the hunting grounds are closed to local hunters all year round; only foreign hunting guests are allowed to hunt there. The bucks achieve antler weights between 250 and 350 grams. There are many wild boars and also good boars. For accommodation, a very good pension located within the hunting grounds is available. The pension is situated in the vineyards with a beautiful view of Lake Balaton. In addition to excellent food, outstanding wines are also served!
