

FAIR HUNT

The other way to hunt...

On Wild Boar and Female Deer

Offer Nr.: 2508

The Hunting Area:

The area is 4500 hectares in size and is 50% covered with forest, while the rest consists of agricultural land and many fallow areas. It is located in the triangle formed by the towns of Csurgó, Gyékényes, and the Croatian border. The main game species are red deer and wild boar. Annually, about 150 red deer are taken, including approximately 30 stags (some around 10 kg, a few between 12-13 kg). The annual bag for wild boar is about 250 animals. The unique aspect of this area is the low hunting pressure. As a result, game can also be spotted during daylight hours, with daily takes of 2-4 animals per hunter not being uncommon during hunts for wild boar and female deer.

Accommodation is provided in a farmhouse located within the hunting area, which has been adapted for hunting purposes. The interior renovation is complete and offers a very stylish hunting lodge for the guests.
