## Mouflon Hunt in the Bakony Forest

**Offer Nr.: 2511**

### **The Hunting Area:**

The exclusive 18,600-hectare state hunting area stretches across Western Hungary in the Bakony Mountains, near the town of Zirc. The hilly, very beautiful area is about 70% covered with deciduous forest. The excellent professional staff ensures optimal conditions for hunting. The main game species are red deer, wild boar, and mouflon. There are many and strong mouflons, with an average horn length of 75-85 cm, but every year some rams with horn lengths up to 90 cm are taken. All rams have a very strong base. There is also a very good wild boar and red deer population. Annually, about 90 red deer stags with antler weights of 5-9 kg are taken. Accommodation is provided in the Class I hunting lodge located within the area.
