

FAIR HUNT

the other way to hunt...

Roe Buck hunting at Lake Balaton

Offer Nr.: 2520

The hunting area:

The slightly hilly, flat hunting ground, with an area of 4500 hectares, is located in the Veszprém district and is part of the Balaton National Park. The strict control of hunting by the National Park Administration guarantees an excellent and well-structured wildlife population. It is undoubtedly one of the most beautiful landscapes in Hungary, where you can not only hunt but also enjoy beautiful day trips in the surrounding area. The terrain is approximately 30% forest, 30% fallow land, and the rest covered with vineyards and agricultural fields. The roe deer, red deer, and wild boar populations are excellent. Some parts of the hunting ground are closed to local hunters all year round; only foreign hunting guests are allowed to hunt here. The bucks reach antler weights between 250 and 350 grams. There are many sows and also good boars. Accommodation is available in this very good guesthouse located within the hunting ground. The guesthouse is situated in the vineyards with a beautiful view of Lake Balaton. In addition to the very good food, excellent wines are also served!
