Driven Wild Boar Hunt in Croatia

Angebot Nr.: 2524

Hunting Area: Bilogora is a mid-sized mountain range in Croatia. It consists of a series of hills and small plains with a length of about 80 kilometers, extending northwest to southeast along the southwestern part of the Podravina. The highest peak is Rajčevica (309 m) located in the northern part of the range. The hunting area covers 27,000 hectares and is located in the counties of Koprivnica-Krizevci and Virovitica-Podravina. Geographically, Bilogora lies between the rivers Drava and Sava and is the source of smaller rivers such as Cesma, Glogovnica, and Ilova. Bilogora is considered Croatia's lowest mountain range, but it is the largest in terms of area. Hunters are accommodated in the hunting lodge BABINAC, near the town of Bjelovar.

The driven hunts are well-organized and have a long-standing tradition. A representative of our company, who also acts as an interpreter, accompanies the group throughout the entire stay.
