Deer Hunting in Veszprém Komitat **Offer Nr.: 2531**

The Hunting Ground:

The 6,800-hectare hunting ground is located in Western Hungary in Veszprém County and extends at the foot of the Bakony Mountains near Ajka. It is slightly hilly, with approximately 40% of the area covered by deciduous forest. The agricultural fields are regularly interrupted by fallow land and reed beds, which provide an ideal habitat for hoofed game. Each year, approximately 20 red deer (weighing 5-10 kg), about 30 roe bucks (weighing 250-400 grams), and around 150 wild boars are harvested. Accommodation is available in the recently renovated hunting lodge located in the middle of the hunting grounds. The lodge offers good Hungarian home cooking. It has two double rooms with double beds and one double room with two single beds. Each room has its own bathroom. There is satellite TV and internet. A maximum of four hunters are accommodated at the same time.
