## Wild Boar Driven Hunt in Western Hungary

**Offer Nr.: 2537**

### The Hunting Area:

The entire state hunting area covers a total of over 70,000 hectares, located in Zala County in Western Hungary, and is divided into seven forestry districts. The state hunting area has been known for many decades as a classic big game hunting area, with an excellent population of red deer and wild boar and famous for its excellent driven hunts. Other game species present include roe deer and some small game.

In each of the seven forestry districts, there is a first-class and cozy hunting lodge available for hunting guests. The hunting lodges are always located in particularly scenic spots within the areas and offer the shortest distances into the

hunting area due to their central location.
