

# FAIR HUNT

*The other way to hunt...*

## Package Red Deer Hunt

**Offer Nr.: 2581**

### The Hunting Area:

The entire state hunting area covers a total of over 65,000 hectares, located in Zala County in western Hungary and is divided into seven forestry districts. The state hunting area has been known for many decades as a classic high-game hunting area, with an excellent population of red deer and wild boar. Other game species present include roe deer and some small game.

In each of the seven forestry districts, a first-class and cozy hunting lodge is available for hunting guests. The hunting lodges are always situated in particularly scenic locations within the areas and, due to their central location, offer the shortest distances into the hunting grounds.
