**the other way to hunt...**

## **Red Deer Package Hunt**

**Offer Nr.: 2584**

### **The Hunting Ground:**

Das The entire state hunting ground covers an area of over 65,000 hectares, located in Zala County in Western Hungary and is divided into seven forestry districts. The state hunting ground has been known for many decades as a classic big game hunting area, with an excellent population of red deer and wild boar. Other game species include roe deer and some small game. In each of the seven forestry districts, there is a first-class and cozy hunting lodge available for hunting guests. The lodges are always located in particularly scenic spots within the hunting grounds and offer the shortest paths to the hunting areas due to their central location.
